

SAVING YOU TIME WITH TELL US ONCE™

the seamless way Altasciences is getting your life-saving drugs to patients faster

We're dedicated to giving you an **effortless journey** and **smooth transitions** between phases and studies with **timely information capture** and **proactive communication**.

Tell Us Once™ is more than a tagline; it's our commitment to you. You won't have to repeat yourself as your molecule advances from phase to phase, or study to study.

PRINCIPLES OF TELL US ONCE™

Full-Service Platform

Partnering with one, integrated CRO/CDMO for an entire program, a single study, or something in between, for maximum efficiency.

Communication Flow

Ask Albert is our proprietary database that captures study/program and client information to facilitate timely information sharing between phases, locations, and departments.

One Program Manager

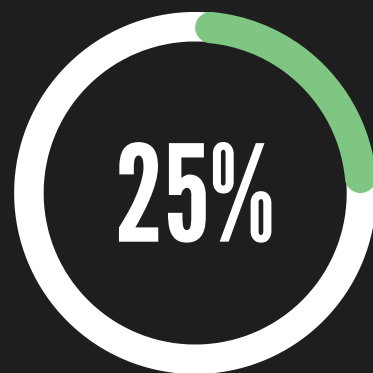

A single point of contact minimizes hand-offs and ensures your file is always up-to-date.

Customized Processes

As your study/program evolves, so do we. We anticipate roadblocks to address them with custom and agile solutions.

Did you know? Altasciences' integrated approach can reduce program durations by 25% thereby lowering your program costs.

ASK ALBERT: INFO CAPTURE

The type of information we keep updated in Ask Albert so your molecule advances effortlessly:
