A lot of CROs claim to be integrated. **But they're not.**

This is what you can expect from

ALTASCIENCES

One dedicated,
cross-functional program
manager and fully in-house
team to handle all study phases

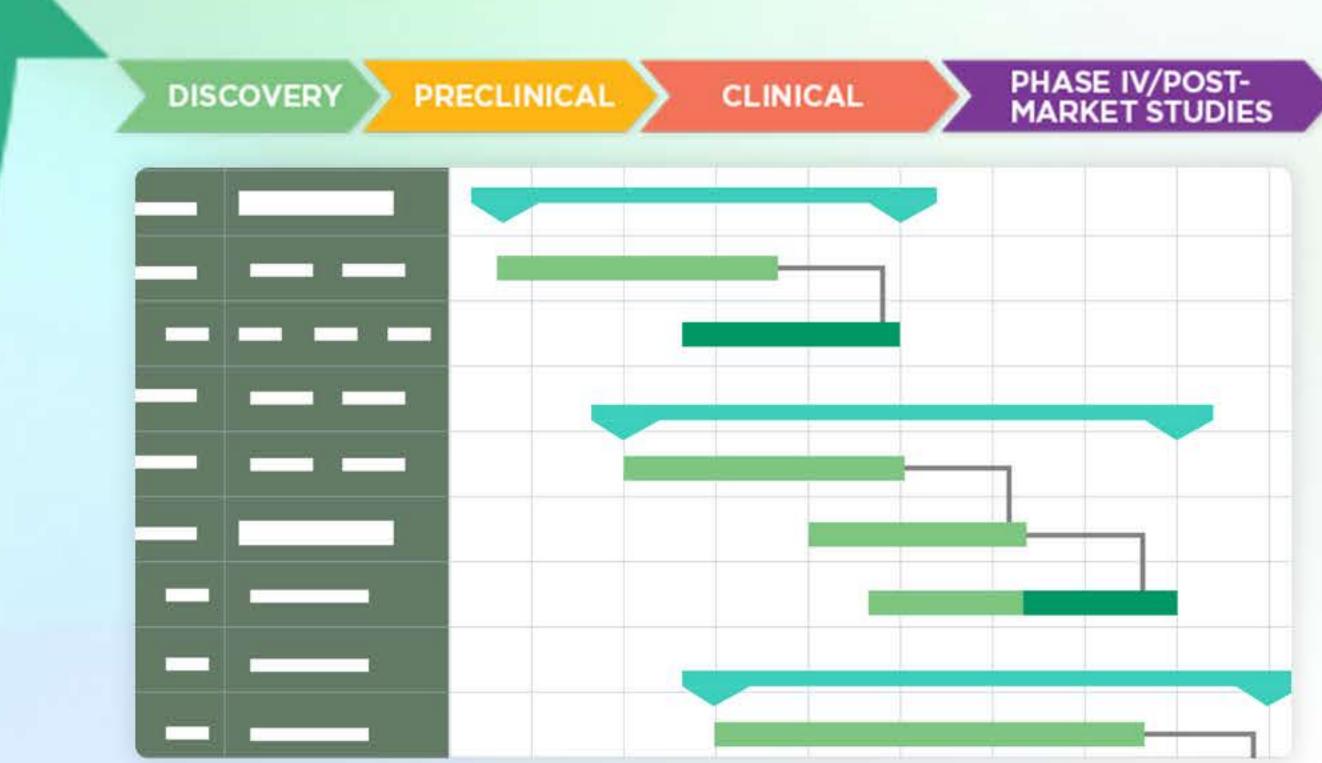

Our proprietary communication database

that shares your information across all phases to ensure you don't have to repeat yourself

A proprietary, centralized scheduling system to create an accelerated roadmap with research activities running in parallel

Proactive planning and communication, flexible scheduling, and real-time data generation for up to 40% shorter timelines

Altasciences' truly integrated

platform helps you bring better drugs to the people who need them, faster.
